	DIAC	GNOSTIC/REFERRAL DECI	SION PATHWA	Y	DECISION AN	ND SIGNATURE
Step 1:	Determine if patient is	at increased risk of moderate	-to-severe Obstr	uctive Sleep Apnea (OSA).	*Patient eligible for HS	SAT?
	Increased risk of mod	lerate-to-severe OSA is indicate	ed by the presen	ce of excessive daytime	○ Yes ○ No	
	sleepiness or fatigu	e and at least two of the follo	wing three crite	ria:		
	-	neas or gasping or choking			 If Yes, forward requisition directly to an accredited HSAT facility (see list of 	
	Habitual loud	5			Accredited HSAT Facilities at https://www.	
	Diagnosed hypertension				acilities at <u>https://www.</u>	
1		pertension				acilities at <u>https://www.</u> /DAP-Accredited-Facilities-
	ls patient at increas	ed risk of moderate-to-sever	e OSA?		<u>cpsbc.ca/files/pdf/</u> <u>HSAT.pdf</u> .)	
	-		e OSA?		HSAT.pdf.)	
	 If Yes, patient <i>re</i> If No and the patient 	ed risk of moderate-to-sever <i>quires a diagnostic test</i> . tient is symptomatic, they may	have another sle		HSAT.pdf.) • If No, patient shoul	DAP-Accredited-Facilities-
	 If Yes, patient <i>re</i> If No and the patient 	ed risk of moderate-to-sever quires a diagnostic test.	have another sle		HSAT.pdf.) If No, patient shoul disorder consultati	DAP-Accredited-Facilities- Id be referred for a sleep ion (FORM B - HLTH 1945).
Step 2:	 If Yes, patient <i>re</i> If No and the pa be referred for a 	ed risk of moderate-to-sever <i>quires a diagnostic test</i> . tient is symptomatic, they may	have another sle ORM B - HLTH 194	15).	HSAT.pdf.) • If No, patient shoul	DAP-Accredited-Facilities- Id be referred for a sleep ion (FORM B - HLTH 1945). SAT does not rule out OSA.
	 If Yes, patient real If No and the pabe referred for a Determine diagnostic should be sent for a 	ed risk of moderate-to-sever quires a diagnostic test. tient is symptomatic, they may sleep disorder consultation (Fi c test. A patient with an increa Home Sleep Apnea Test (HS/	have another sle ORM B - HLTH 194 sed risk of moder AT), <i>unless one o</i>	15). rate-to-severe OSA	HSAT.pdf.) • If No, patient shou disorder consultati A negative or equivocal HS	DAP-Accredited-Facilities- Id be referred for a sleep ion (FORM B - HLTH 1945). SAT does not rule out OSA.
	 If Yes, patient real If No and the pabe referred for a Determine diagnostic should be sent for a HSAT exclusion criter 	ed risk of moderate-to-sever quires a diagnostic test. tient is symptomatic, they may sleep disorder consultation (Fi c test. A patient with an increa Home Sleep Apnea Test (HS/ ria apply (any one item preclue	have another sle DRM B - HLTH 194 sed risk of moder AT), unless one o des HSAT):	45). rate-to-severe OSA r more of the following	HSAT.pdf.) If No, patient shoul disorder consultati A negative or equivocal HS Consider referral to a sleep	DAP-Accredited-Facilities- Id be referred for a sleep ion (FORM B - HLTH 1945). SAT does not rule out OSA.
	 If Yes, patient real If No and the pabe referred for a Determine diagnostic should be sent for a HSAT exclusion criter Concern for no 	ed risk of moderate-to-sever quires a diagnostic test. tient is symptomatic, they may sleep disorder consultation (Fo c test. A patient with an increa Home Sleep Apnea Test (HS/ ria apply (any one item preclue on-respiratory sleep disorder (e.g	have another sle ORM B - HLTH 194 sed risk of moder AT), unless one o des HSAT): g. chronic insomr	15). ate-to-severe OSA r more of the following ia, sleep walking/talking).	HSAT.pdf.) If No, patient shoul disorder consultati A negative or equivocal HS Consider referral to a sleep	DAP-Accredited-Facilities- Id be referred for a sleep ion (FORM B - HLTH 1945). SAT does not rule out OSA. o disorders physician
	 If Yes, patient real If No and the pabe referred for a Determine diagnostic should be sent for a HSAT exclusion criter Concern for no Risk of hypove 	ed risk of moderate-to-sever quires a diagnostic test. tient is symptomatic, they may sleep disorder consultation (Fo c test. A patient with an increa Home Sleep Apnea Test (HS/ ria apply (any one item preclue on-respiratory sleep disorder (e.e. entilation (e.g. neuromuscular c	have another sle ORM B - HLTH 194 sed risk of moder AT), unless one o des HSAT): g. chronic insomr	15). ate-to-severe OSA r more of the following ia, sleep walking/talking).	HSAT.pdf.) If No, patient shoul disorder consultati A negative or equivocal HS Consider referral to a sleep (FORM B - HLTH 1945).	DAP-Accredited-Facilities- ld be referred for a sleep ion (FORM B - HLTH 1945). SAT does not rule out OSA. o disorders physician
	 If Yes, patient realistic patient realistic patient of the patient o	ed risk of moderate-to-sever quires a diagnostic test. tient is symptomatic, they may sleep disorder consultation (Fo c test. A patient with an increa Home Sleep Apnea Test (HS/ ria apply (any one item preclue on-respiratory sleep disorder (e.g entilation (e.g. neuromuscular c ar opiate medication use.	have another sle DRM B - HLTH 194 sed risk of moder AT), unless one o des HSAT): g. chronic insomr lisease, BMI ≥ 40	45). ate-to-severe OSA r more of the following ia, sleep walking/talking). kg/m ²).	HSAT.pdf.) If No, patient shoul disorder consultati A negative or equivocal HS Consider referral to a sleep (FORM B - HLTH 1945).	DAP-Accredited-Facilities- ld be referred for a sleep ion (FORM B - HLTH 1945). SAT does not rule out OSA. o disorders physician
	 If Yes, patient real before a should be sent for a before a concern for no concern	ed risk of moderate-to-sever quires a diagnostic test. tient is symptomatic, they may sleep disorder consultation (Fo c test. A patient with an increa Home Sleep Apnea Test (HSJ ria apply (any one item preclud on-respiratory sleep disorder (e.g. entilation (e.g. neuromuscular of ar opiate medication use. diopulmonary disease (e.g. hist	have another sle DRM B - HLTH 194 sed risk of moder AT), unless one o des HSAT): g. chronic insomr lisease, BMI ≥ 40	45). ate-to-severe OSA r more of the following ia, sleep walking/talking). kg/m ²).	HSAT.pdf.) If No, patient shoul disorder consultati A negative or equivocal HS Consider referral to a sleep (FORM B - HLTH 1945).	DAP-Accredited-Facilities- ld be referred for a sleep ion (FORM B - HLTH 1945). SAT does not rule out OSA. o disorders physician
	 If Yes, patient real best of No and the parabeter of the para	ed risk of moderate-to-sever quires a diagnostic test. tient is symptomatic, they may sleep disorder consultation (Fe c test. A patient with an increa Home Sleep Apnea Test (HS/ ria apply (any one item preclud on-respiratory sleep disorder (e.e. entilation (e.g. neuromuscular c ar opiate medication use. diopulmonary disease (e.g. hist severe lung disease).	have another sle DRM B - HLTH 194 sed risk of moder AT), unless one o des HSAT): g. chronic insomr lisease, BMI ≥ 40	45). ate-to-severe OSA r more of the following ia, sleep walking/talking). kg/m ²).	HSAT.pdf.) If No, patient shoul disorder consultati A negative or equivocal HS Consider referral to a sleep (FORM B - HLTH 1945).	DAP-Accredited-Facilities- ld be referred for a sleep ion (FORM B - HLTH 1945). SAT does not rule out OSA. o disorders physician
	 If Yes, patient real best of No and the part best of the part of	ed risk of moderate-to-sever quires a diagnostic test. tient is symptomatic, they may sleep disorder consultation (Fe c test. A patient with an increa Home Sleep Apnea Test (HS/ ria apply (any one item preclue on-respiratory sleep disorder (e.g. entilation (e.g. neuromuscular c ar opiate medication use. diopulmonary disease (e.g. hist severe lung disease). tive or equivocal HSAT.	have another sle DRM B - HLTH 194 sed risk of moder AT), unless one o des HSAT): g. chronic insomr lisease, BMI ≥ 40	45). ate-to-severe OSA r more of the following ia, sleep walking/talking). kg/m ²).	HSAT.pdf.) If No, patient shoul disorder consultati A negative or equivocal HS Consider referral to a sleep (FORM B - HLTH 1945).	DAP-Accredited-Facilities- ld be referred for a sleep ion (FORM B - HLTH 1945). SAT does not rule out OSA. o disorders physician
	If Yes, patient realist of No and the paraber referred for a Determine diagnostic should be sent for a HSAT exclusion critere Concern for no Risk of hypove Chronic/regula Significant carmoderate-to-s Previous negare Children < 16 yes.	ed risk of moderate-to-sever quires a diagnostic test. tient is symptomatic, they may sleep disorder consultation (Fd c test. A patient with an increa Home Sleep Apnea Test (HS/ ria apply (any one item preclue on-respiratory sleep disorder (e.g. entilation (e.g. neuromuscular c ar opiate medication use. diopulmonary disease (e.g. his severe lung disease). tive or equivocal HSAT. years old.	t have another sle ORM B - HLTH 194 sed risk of moder AT), <i>unless one o</i> des HSAT): g. chronic insomr lisease, BMI ≥ 40 tory of stroke, he	45). ate-to-severe OSA r more of the following ia, sleep walking/talking). kg/m ²). art failure,	HSAT.pdf.) If No, patient shoul disorder consultati A negative or equivocal HS Consider referral to a sleep (FORM B - HLTH 1945).	DAP-Accredited-Facilities- ld be referred for a sleep ion (FORM B - HLTH 1945). SAT does not rule out OSA. o disorders physician
	If Yes, patient realist of No and the paraber referred for a Determine diagnostic should be sent for a HSAT exclusion critere Concern for no Risk of hypove Chronic/regula Significant carmoderate-to-s Previous negare Children < 16 yes.	ed risk of moderate-to-sever quires a diagnostic test. tient is symptomatic, they may sleep disorder consultation (Fe c test. A patient with an increa Home Sleep Apnea Test (HS/ ria apply (any one item preclue on-respiratory sleep disorder (e.g. entilation (e.g. neuromuscular of ar opiate medication use. diopulmonary disease (e.g. his severe lung disease). tive or equivocal HSAT. years old. mplete necessary steps for self-	t have another sle ORM B - HLTH 194 sed risk of moder AT), <i>unless one o</i> des HSAT): g. chronic insomr lisease, BMI ≥ 40 tory of stroke, he	45). ate-to-severe OSA r more of the following ia, sleep walking/talking). kg/m ²). art failure,	HSAT.pdf.) If No, patient shoul disorder consultati A negative or equivocal HS Consider referral to a sleep (FORM B - HLTH 1945).	DAP-Accredited-Facilities- ld be referred for a sleep ion (FORM B - HLTH 1945). SAT does not rule out OSA. o disorders physician
	 If Yes, patient realistic production of the parabolic production of the parabolic production of the parabolic product pro	ed risk of moderate-to-sever quires a diagnostic test. tient is symptomatic, they may sleep disorder consultation (Fe c test. A patient with an increa Home Sleep Apnea Test (HS/ ria apply (any one item preclue on-respiratory sleep disorder (e.g. entilation (e.g. neuromuscular of ar opiate medication use. diopulmonary disease (e.g. his severe lung disease). tive or equivocal HSAT. years old. mplete necessary steps for self-	have another sle ORM B - HLTH 19- sed risk of moder AT), unless one o des HSAT): g. chronic insomr lisease, BMI \geq 40 tory of stroke, he	45). ate-to-severe OSA r more of the following ia, sleep walking/talking). kg/m ²). art failure, AT (e.g. cognitive,	HSAT.pdf.) If No, patient shoul disorder consultati A negative or equivocal HS Consider referral to a sleep (FORM B - HLTH 1945).	DAP-Accredited-Facilities- ld be referred for a sleep ion (FORM B - HLTH 1945). SAT does not rule out OSA. o disorders physician
